Claim No: CFI-066-2024

BETWEEN:

Klesta Eshja and Hair Creators Salon LLC

Claimants

AND

Salah Mohamed Adel Al Masri & Others

Defendants

{ witness statement }

Date 23/08/2025

I am the undersigned Danica Gamao Castillo, Pilipino and holder of passport (P6797909A), I am stating here True facts I witnessed during my employment at the second claimant.

I worked for the second claimant from the opening date until late 2024, under the management of the first defendant, my role was the main receptionist of the salon, and I continued my employment under the management of the first claimant post the share transfer for several months even after the ownership and management changed.

I was at the reception during the initial meeting between the first defendant and Platinum International real estate representative during early February 2024, during their visit to the salon, I confirm that the first defendant presented liability related documents to the real estate agent in hard printed copies, These documents were printed from a printer that is located on the Reception desk, I handed over those documents to the real estate agent by my hand, some of which were bank statements.

I also confirm that Ms. Marsella and Ms. Rexhina have visited the salon post that date, they had navigated all the documents on the Salon computers, They have browsed the folders and files kept on the reception, They had full access to almost everything I had, they have been answered for every question and they have been guided for every inquiry, they have been given full freedom in that matter as per instructions from the first defendant. I don't remember any denial of any request for a document disclosure at my time.

They have been granted access to the company banking system later on, and they have been coordinating details regarding the Company website with Mr. Thomas, the media manager of the company as well as they have fully accessed the company email addresses of the following;
